Due to fluctuating feed and fuel prices, prices are subject to change WITHOUT notice.

SHIPPING: As much as we want to, we *cannot control* postage costs, and can only try to see you get the best handling we can arrange. We must use the USPS cost calculator at www.usps.com to figure rates by weight and zone. Using the weight of each bundle, and the zip codes (44820 being the origin zip code, and yours being the delivery zip code... And remember to compute with the size of the box. That changes the amount, unfortunately. See the bird letter for those dimensions...) We will calculate those costs on our invoice to you. Unfortunately the costs have increased.

Additionally, the USPS includes only \$100 of **insurance** on each bundle. A two- or three-box bundle of day-old chicks, especially *rooster* chicks, will exceed that value, and we recommend additional insurance on your shipment. Please advise us on your particular order. **Failure to request additional insurance will absolve Elkhorn Farms of additional liability.**

** Insurance for Express Mail per package- 1st \$100 is included by USPS.
Additional insurance available. Call for prices or check usps.com

We have and continue to establish **truck shipments** to central areas in the North (Michigan), South (Mississippi, Alabama; or North Carolina/Georgia,) East (New York/ Pennsylvania/ New Jersey) and West (Indiana/Illinois) . We will designate weeks for those shipments based on need and availability. Contact us if this would be of interest to you so we can help decrease shipment costs and increase livability of your chicks. If you travel a considerable distance to pick up your chicks at our farm, we could reserve a room in our Baehr Guest House for you.

I encourage you again to join the North American Gamebird Association, the trade organization for those raising upland Gamebirds. They are actively protecting YOUR industry, so please consider joining.
